

Broadband Service Agreement

Speeds

The advertised average download speed is 150 megabits per second, measured at peak time between 8pm and 10pm.

Outages and compensation

If the service is not restored within two full working days of a reported fault, compensation accrues at 8.40 pounds for each day.

Ending the agreement early

Leaving before the end of the 24 month term incurs a charge equal to the monthly price for each remaining month, discounted by 10 percent.

Engineer visits

A missed engineer appointment is charged at 25 pounds unless it is cancelled more than 24 hours beforehand.
